

GENERAL RESTRICTIONS

1. Detailed plans for proposed construction in accordance with Sunoco Pipeline L.P.'s ("SPLP") Engineering Restrictions must be submitted to SPLP's Engineering Department for review and approval to determine to what extent, if any, the pipeline or right-of-way will be affected by the proposed construction and/or development.
2. A driveway or roadway may cross the right-of-way and pipeline perpendicularly, but at no time will it be parallel to, over and within the right-of-way.
3. Buildings, swimming pools, sheds, decks, trees, shrubs or any obstruction of a permanent nature shall not be constructed, planted or placed within the right-of-way and easement. The width of the easements vary, but typically structures closer than (25') feet to any existing pipeline (50' easement) are not permitted. You must contact SPLP's Right-of-Way Department at (610) 670-3322 (Eastern U.S.) or (281) 637-6415 (Southwestern U.S.) to determine the easement width for a specific property.
4. Wells, leach beds, cesspools or sewer systems of any type shall not be placed within the right-of-way.
5. All underground facilities crossing the right-of-way shall cross under the existing pipeline with a minimum of 24-inches clearance. This includes, but is not limited to, sewer drain lines.
6. The earth cover over the pipelines shall be maintained and never changed in any manner without the express written permission of SPLP.
7. Any parking area placed over the pipeline with permission of SPLP shall be subject to an amendment to agreement entered into by subject parties prior to construction of same.
8. If heavy equipment is to cross the existing pipeline for any reason, it will be necessary for the crossing party to provide and maintain a ramp of sufficient material to protect said pipeline. Sunoco Logistics will make the decision as to how much fill and what other type of protective structure, if any; will be required for the ramp. Upon completion of construction and discontinuation of heavy equipment passage over the pipeline, the ramp may be removed.
9. **A SPLP inspector must be present at the time that any work is done within Sunoco Logistics' right-of-way.**
10. No blasting is permitted within 300 feet of the pipeline. Anything less than 300 feet must have the written approval of and instruction from SPLP's Engineering Department.
11. Should you have any questions or need additional information on the aforementioned Paragraphs 1 through 10, please call SPLP's Right-of-Way Department at (610) 670-3322 (Eastern U.S.) or (281) 637-6415 (Southwestern U.S.).

GENERAL RESTRICTIONS

12. State law requires you to contact your State One Call Center at least two or three days in advance, as required by your state, prior to any construction activity. The nationwide telephone number for your State One Call Center is “811”. Individual State One Call Center “800” numbers are also provided as follows:

- Arkansas (800) 482-8998
- Delaware (800) 282-8555
- Kentucky (800) 752-6007
- Louisiana (800) 272-3020
- Michigan (800) 482-7171
- Mississippi (800) 227-6477
- New Jersey (800) 272-1000
- New York (800) 962-7962
- New Mexico (800) 321-2537
- Ohio (800) 362-2764
- Oklahoma (800) 522-6543
- Pennsylvania (800) 242-1776
- Tennessee (800) 351-1111
- Texas (800) 344-8377

13. In addition to the legally required notice referenced above and to schedule a SPLP Inspector to witness work in the vicinity of the pipeline, please call the selected SPLP Office below. **Note: CONTACTING SUNOCO PIPELINE L.P. DIRECTLY DOES NOT RELIEVE YOU OF THE LEGAL OBLIGATION TO NOTIFY YOUR STATE ONE CALL CENTER.** (Please call COLLECT if outside the area code)
