SUNOCO LOGISTICS PARTNERS L.P. EXPECTS NO IMPACT FROM SALE OF TULSA REFINERY

PHILADELPHIA, April 16, 2009 – Sunoco Logistics Partners L.P. (NYSE: SXL) (the “Partnership”) today announced that it does not expect any impact to its business from today’s announced sale of the Tulsa Refinery by Sunoco, Inc. (R&M) to an affiliate of Holly Corp. Effective with the closing of the sale of the refinery, Sunoco Partners Marketing & Terminals L.P., an affiliate of the Partnership, will have a long term agreement with Holly Refining & Marketing MidCon, L.L.C. to supply crude oil to the Tulsa Refinery. Volumes are expected to be commensurate with historical volumes supplied to Sunoco, Inc. (R&M).

“Sunoco Partners Marketing & Terminals expects to continue purchasing, gathering and transporting crude oil in Oklahoma and elsewhere to meet our contractual commitments to Holly, and to providing the same quality of service to producers from whom we purchase crude oil” said Scott McCord, Vice President of Lease Acquisition & Marketing. “We are pleased to have the opportunity to continue to supply crude oil to the Tulsa Refinery, and we look forward to working with Holly as they execute on their stated plans to upgrade the refinery,” said Mr. McCord.

Sunoco Logistics Partners L.P. (NYSE: SXL), headquartered in Philadelphia, is a master limited partnership formed to acquire, own and operate refined product and crude oil pipelines and terminal facilities. The Refined Products Pipeline System consists of approximately 2,200 miles of refined product pipelines located in the Northeastern and Midwestern United States, the recently acquired MagTex Pipeline System, and interests in four refined products pipelines, consisting of a 9.4 percent interest in Explorer Pipeline Company, a 31.5 percent interest in Wolverine Pipe Line Company, a 12.3 percent interest in West Shore Pipe Line Company and a 14.0 percent interest in Yellowstone Pipe Line Company. The Terminal Facilities consist of approximately 9.7 million shell barrels of refined products terminal capacity and approximately 21.2 million shell barrels of crude oil terminal capacity (including approximately 17.8 million shell barrels of capacity at the Texas Gulf Coast Nederland Terminal). The Crude Oil Pipeline System consists of approximately 3,800 miles of crude oil pipelines, located principally in Oklahoma and Texas, a 55.3 percent interest in Mid-Valley Pipeline Company, a 43.8 percent interest in the West Texas Gulf Pipe Line Company and a 37.0 percent interest in the Mesa Pipe Line System.
