SUNOCO LOGISTICS PARTNERS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

Sunoco Logistics Partners L.P. (the "Partnership") is a Delaware limited partnership formed by Sunoco, Inc. ("Sunoco") in October 2001 to acquire, own and operate a substantial portion of Sunoco's logistics business, consisting of refined product pipelines, terminalling and storage assets, crude oil pipelines, and crude oil acquisition and marketing assets located in the Northeast, Midwest and South Central United States. Sunoco, Inc. and its wholly-owned subsidiaries including Sunoco, Inc. (R&M) are collectively referred to as "Sunoco". The consolidated financial statements reflect the results of Sunoco Logistics Partners L.P. and its wholly-owned partnerships, including Sunoco Logistics Partners Operations L.P. (the "Operating Partnership"). Equity ownership interests in corporate joint ventures, which are not consolidated, are accounted for under the equity method.

The accompanying condensed consolidated financial statements are presented in accordance with the requirements of Form 10-Q and accounting principles generally accepted in the United States for interim financial reporting. They do not include all disclosures normally made in financial statements contained in Form 10-K. In management's opinion, all adjustments necessary for a fair representation of the results of operations, financial position and cash flows for the periods shown have been made. All such adjustments are of a normal recurring nature, except for the impairment charge (Note 5). Results for the nine months ended September 30, 2008 are not necessarily indicative of results for the full year 2008.

2. Acquisitions

Syracuse Terminal Acquisition

On June 4, 2007, the Partnership purchased a 50% undivided interest in a refined products terminal located in Syracuse, New York from Mobil Pipe Line Company, an affiliate of Exxon Mobil Corporation, for approximately \$13.4 million. Total terminal storage capacity is approximately 550,000 barrels. The purchase price of the acquisition was funded with borrowings under the Partnership's Credit Facility (Note 7), and has been allocated to property, plants and equipment based on the relative fair value of the assets acquired on the acquisition date. The results of the acquisition are included in the financial statements within the Terminal Facilities business segment from the date of acquisition.

MagTex Refined Products Pipeline System Acquisition

On April 28, 2008, Sunoco Pipeline L.P., a subsidiary of the Partnership, entered into a definitive agreement to acquire a refined products pipeline system and certain other real and personal property interests and assets from Mobil Pipe Line Company, an affiliate of Exxon Mobil Corporation. The pipeline system consists of approximately 275 miles of refined products pipeline originating in Beaumont and Port Arthur, Texas and terminating in Hearne, Texas and an additional 197 miles of refined products pipeline extending from Beaumont, Texas and terminating in Waskom, Texas. In addition to the pipeline system, Sunoco Partners Marketing & Terminals L.P., a subsidiary of the Partnership, entered into definitive agreements with Exxon Mobil Corporation, Mobil Pipe Line Company and ExxonMobil Oil Corporation, also affiliates of Exxon Mobil Corporation, to acquire six refined products terminal facilities. The terminal facilities are located in Hearne, Hebert, Waco, Center and Waskom, Texas and Arcadia, Louisiana and have combined storage capacity of approximately 1.2 million shell barrels. The acquisitions are subject to certain closing conditions. The transactions, with a combined purchase price of approximately \$200.0 million, are expected to be completed in the fourth quarter of 2008.

3. Related Party Transactions

Advances to/from Affiliate

The Partnership has a treasury services agreement with Sunoco pursuant to which it, among other things, participates in Sunoco's centralized cash management program. Under this program, all of the Partnership's cash receipts and cash disbursements are processed, together with those of Sunoco and its other subsidiaries, through Sunoco's cash accounts with a corresponding credit or charge to an intercompany account. The intercompany balances are settled periodically, but no less frequently than monthly. Amounts due from Sunoco earn interest at a rate equal to the average rate of the Partnership's third-party money market investments, while amounts due to Sunoco bear interest at a rate equal to the interest rate provided in the Partnership's Credit Facility (see Note 7).

Administrative Services

Selling, general and administrative expenses in the condensed consolidated statements of income include costs incurred by Sunoco for the provision of certain centralized corporate functions such as legal, accounting, treasury, engineering, information technology, insurance and other corporate services, including the administration of employee benefit plans. These are provided to the

Partnership under an omnibus agreement (“Omnibus Agreement”) with Sunoco for an annual administrative fee. The fee for the annual period ended December 31, 2007 was \$6.5 million. In January 2008, the parties extended the term of Section 4.1 of the Omnibus Agreement (which concerns the Partnership’s obligation to pay the annual fee for provision of certain general and administrative services) by one year. The annual administrative fee applicable to this one-year extension is \$6.0 million, which reflects the Partnership directly incurring some of these general and administrative costs. These costs may be increased if the acquisition or construction of new assets or businesses requires an increase in the level of general and administrative services received by the Partnership. There can be no assurance that Section 4.1 of the Omnibus Agreement will be extended beyond 2008, or that, if extended, the administrative fee charged by Sunoco will be at or below the current administrative fee. In the event that the Partnership is unable to obtain such services from Sunoco or third parties at or below the current cost, the Partnership’s financial condition and results of operations may be adversely impacted.

The annual administrative fee does not include the costs of shared insurance programs, which are allocated to the Partnership based upon its share of the cash premiums incurred. This fee also does not include salaries of pipeline and terminal personnel or other employees of the general partner, or the cost of their employee benefits. These employees are employees of the Partnership’s general partner or its affiliates, which are wholly-owned subsidiaries of Sunoco. The Partnership has no employees. Allocated Sunoco employee benefit plan expenses for employees who work in the pipeline, terminalling, storage and crude oil gathering operations, including senior executives, include non-contributory defined benefit retirement plans, defined contribution 401(k) plans, employee and retiree medical, dental and life insurance plans, incentive compensation plans, and other such benefits. The Partnership is reimbursing Sunoco for these costs and other direct expenses incurred on its behalf. These expenses are reflected in cost of products sold and operating expenses and selling, general and administrative expenses in the condensed consolidated statements of income.

Affiliated Revenues and Accounts Receivable, Affiliated Companies

Affiliated revenues in the statements of income consist of sales of crude oil as well as the provision of crude oil and refined product pipeline transportation, terminalling and storage services to Sunoco. Sales of crude oil are priced using market based rates. Pipeline revenues are generally determined using posted tariffs. In 2002, the Partnership entered into a pipelines and terminals storage and throughput agreement and various other agreements with Sunoco under which the Partnership is charging Sunoco fees for services provided under these agreements that, in management’s opinion, are comparable to those charged in arm’s-length, third-party transactions. Under the pipelines and terminals storage and throughput agreement, Sunoco agreed to pay the Partnership a minimum level of revenues for transporting refined products. Sunoco also has agreed to minimum throughputs of crude oil and liquefied petroleum gas in the Partnership’s Inkster Terminal, Fort Mifflin Terminal Complex and certain crude oil pipelines. During the first quarter of 2007, the agreement to throughput at the Partnership’s refined product terminals and to receive and deliver refined product into the Partnership’s Marcus Hook Tank Farm expired. On March 1, 2007 the Partnership entered into new five year agreements with Sunoco to provide these services. These new agreements contain no minimum throughput obligations for Sunoco.

Under various other agreements entered into in 2002, Sunoco is, among other things, purchasing from the Partnership, at market-based rates, particular grades of crude oil that the Partnership’s crude oil acquisition and marketing business purchases for delivery to certain pipelines. These agreements automatically renew on a monthly basis unless terminated by either party on 30 days’ written notice. Sunoco has also leased the Partnership’s 58 miles of interrefinery pipelines between Sunoco’s Philadelphia and Marcus Hook refineries for a term of 20 years.

Capital Contributions

The Partnership has agreements with Sunoco which requires Sunoco to, among other things, reimburse the Partnership for certain expenditures. These agreements include:

- the Interrefinery Lease Agreement, which requires Sunoco to reimburse the Partnership for any non-routine maintenance expenditures incurred, as defined through February 2022; and
- the Eagle Point purchase agreements, which requires Sunoco to reimburse the Partnership for certain capital improvement projects incurred regarding the assets acquired. On January 24, 2008 Sunoco and the Partnership entered into an Amended and Restated Dock and Terminal Throughput Agreement for the Eagle Point logistics assets. Pursuant to the amended agreement the Partnership is obligated to make certain capital improvements to the Eagle Point docks. The term for the parties’ obligations with respect to the docks has been extended from March 31, 2016 to December 31, 2026. The rates to be paid by Sunoco for throughput across the docks have been modified to reflect the capital improvements, and the rates escalate annually based on the Consumer Price Index. Sunoco’s throughput obligations across the docks remain unchanged. The parties’ obligations with respect to the Eagle Point terminal remain unchanged except that the throughput rates escalate annually based on the increase in the Consumer Price Index.

During the nine months ended September 30, 2008 and 2007, the Partnership was reimbursed \$1.9 million and \$1.0 million, respectively, associated with these agreements. The reimbursement of these amounts was recorded by the Partnership as capital contributions to Partners’ Capital within the condensed consolidated balance sheet at September 30, 2008.

In February 2008 and 2007, the Partnership issued 0.1 million common units in each period to participants in the Sunoco Partners LLC Long-Term Incentive Plan (“LTIP”) upon completion of award vesting requirements. As a result of these issuances of common units, the general partner contributed \$0.1 million in each period to the Partnership to maintain its 2.0 percent general partner interest. The Partnership recorded these amounts as capital contributions to Partners’ Capital within its condensed consolidated balance sheets.

4. Net Income Per Unit Data

Basic and diluted net income per limited partner unit is calculated by dividing net income, after deducting the amount allocated to the general partner’s interest, by the weighted-average number of limited partner common and subordinated units outstanding during the period.

The general partner’s interest in net income consists of its 2.0 percent general partner interest and “incentive distributions”, which are increasing percentages, up to 50 percent of quarterly distributions in excess of \$0.50 per limited partner unit (see Note 11). The general partner was allocated net income of \$16.1 million (representing 31.9 percent of total net income for the period) and \$9.7 million (representing 25.8 percent of total net income for the period) for the three months ended September 30, 2008 and 2007, respectively, and \$42.3 million (representing 30.4 percent of total net income for the period) and \$15.3 million (representing 18.0 percent of total net income for the period) for the nine months ended September 30, 2008 and 2007, respectively. Diluted net income per limited partner unit is calculated by dividing net income applicable to limited partners’ by the sum of the weighted-average number of common and subordinated units outstanding and the dilutive effect of incentive unit awards, as calculated using the treasury stock method.

The following table sets forth the reconciliation of the weighted average number of limited partner units used to compute basic net income per limited partner unit to those used to compute diluted net income per limited partner unit for the three and nine months ended September 30, 2008 and 2007:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Weighted average number of limited partner units outstanding – basic	28,657,485	28,586,280	28,647,578	28,579,263
Add effect of dilutive unit incentive awards	188,074	152,952	183,075	142,763
Weighted average number of limited partner units – diluted	<u>28,845,559</u>	<u>28,739,232</u>	<u>28,830,653</u>	<u>28,722,026</u>

5. Impairment Charge

Long-lived assets, other than those held for sale, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. In the first quarter of 2008, the Partnership recognized an impairment of \$5.7 million related to Management’s decision to discontinue efforts to expand liquefied petroleum gas storage capacity at its Inkster, Michigan facility. The impairment charge reflects the entire cost associated with the project.

6. Investment in Affiliates

The Partnership’s ownership percentages in corporate joint ventures as of September 30, 2008 and December 31, 2007 were as follows:

	Partnership Ownership Percentage
Explorer Pipeline Company	9.4%
West Shore Pipe Line Company	12.3%
Yellowstone Pipe Line Company	14.0%
Wolverine Pipe Line Company	31.5%
West Texas Gulf Pipe Line Company	43.8%
Mid-Valley Pipeline Company ⁽¹⁾	55.3%

⁽¹⁾ The Partnership’s interest in the Mid-Valley Pipeline Company includes 50 percent voting rights.

The following table provides summarized combined statement of income data on a 100 percent basis for the Partnership's corporate joint venture interests for the three and nine months ended September 30, 2008 and 2007 (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Income Statement Data:				
Total revenues	\$122,360	\$138,583	\$354,533	\$381,836
Net income	\$ 26,659	\$ 39,497	\$ 82,811	\$110,042

The following table provides summarized combined balance sheet data on a 100 percent basis for the Partnership's corporate joint venture interests as of September 30, 2008 and December 31, 2007 (in thousands of dollars):

	September 30, 2008	December 31, 2007
Balance Sheet Data:		
Current assets	\$ 141,479	\$ 181,683
Non-current assets	\$ 665,457	\$ 692,331
Current liabilities	\$ 136,846	\$ 122,229
Non-current liabilities	\$ 586,634	\$ 661,777
Net equity	\$ 83,456	\$ 90,008

The Partnership's investments in Wolverine, West Shore, Yellowstone, and West Texas Gulf at September 30, 2008 include an excess investment amount of approximately \$53.8 million, net of accumulated amortization of \$3.7 million. The excess investment is the difference between the investment balance and the Partnership's proportionate share of the net assets of the entities. The excess investment was allocated to the underlying tangible and intangible assets. Other than land and indefinite-lived intangible assets, all amounts allocated, principally to pipeline and related assets, are amortized using the straight-line method over their estimated useful life of 40 years and included within depreciation and amortization in the condensed consolidated statements of income.

7. Long-Term Debt

The components of long-term debt are as follows (in thousands of dollars):

	September 30, 2008	December 31, 2007
Credit Facility – due November 2012	\$ 101,000	\$ 91,000
Credit Facility – due May 2009	—	—
Senior Notes – 7.25%, due February 15, 2012	250,000	250,000
Senior Notes – 6.125%, due May 15, 2016	175,000	175,000
Less unamortized bond discount	(751)	(896)
	<u>\$ 525,249</u>	<u>\$ 515,104</u>

\$400 Million Credit Facility

Sunoco Logistics Partners Operations L.P. (the "Operating Partnership"), a wholly-owned entity of the Partnership, has a five-year \$400 million revolving credit facility ("Credit Facility") with a syndicate of 10 participating financial institutions. The Credit Facility is available to fund the Operating Partnership's working capital requirements, to finance future acquisitions, to finance future capital projects and for general partnership purposes. The Credit Facility matures in November 2012 and may be prepaid at any time. It bears interest at the Operating Partnership's option, at either (i) LIBOR plus an applicable margin, (ii) the higher of the federal funds rate plus 0.50 percent or the Citibank prime rate (each plus the applicable margin) or (iii) the federal funds rate plus an applicable margin. The Credit Facility contains various covenants limiting the Operating Partnership's ability to incur indebtedness; grant certain liens; make certain loans, acquisitions and investments; make any material change to the nature of its business; acquire another company; or enter into a merger or sale of assets, including the sale or transfer of interests in the Operating Partnership's subsidiaries. The Credit Facility also limits the Operating Partnership, on a rolling four-quarter basis, to a maximum total debt to EBITDA ratio of 4.75 to 1, which can generally be increased to 5.25 to 1 during an acquisition period. The Operating Partnership is in compliance with this requirement as of September 30, 2008.

In September 2008, Lehman Brothers, one of the participating banks with a commitment under the Credit Facility amounting to \$5.0 million declared bankruptcy and the Partnership believes Lehman Brothers will not fund future draw requests. In October 2008, Wachovia, another participant with a \$40.0 million commitment agreed to be acquired by Wells Fargo after experiencing financial difficulties. Under this transaction, the Partnership believes Wells Fargo will honor Wachovia's commitment under the facility. However, the Partnership can not make any assurances that this transaction will close.

\$100 Million Credit Facility

In anticipation of the pending MagTex Acquisition, the Operating Partnership, entered into a \$100 million 364 day revolving credit facility (“\$100 million Credit Facility”) on May 28, 2008. The \$100 million Credit Facility is available to fund the same activities as the Credit Facility described above. If the MagTex Acquisition is terminated, this new revolver will be terminated. The \$100 million Credit Facility matures in May 2009 and can be prepaid at any time. Interest on outstanding borrowings is calculated, at the Operating Partnership’s option, using either (i) LIBOR plus an applicable margin or (ii) the higher of (a) the Federal funds rates plus 0.50 percent plus an applicable margin, and (b) the Citibank prime rate plus an applicable margin. The \$100 million Credit Facility contains the same covenant requirements as the Credit Facility described above. As of September 30, 2008 there were no borrowings outstanding under the \$100 million Credit Facility.

Interest Rate Swap

The Partnership uses interest rate swaps, a type of derivative financial instrument, to manage interest costs and minimize the effects of interest rate fluctuations on cash flows associated with its credit facility. The Partnership does not use derivatives for trading or speculative purposes. While interest rate swaps are subject to fluctuations in value, these fluctuations are generally offset by the value of the underlying exposures being hedged. The Partnership minimizes the risk of credit loss by entering into these agreements with financial institutions that have high credit ratings. The Partnership accounts for its interest rate swaps in accordance with SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities” (“SFAS 133”), which requires that all derivatives be recorded on the balance sheet at fair value. SFAS 133 also requires that changes in the fair value be recorded each period in current earnings or other comprehensive income, depending on whether a derivative has been designated as part of a hedge transaction and, if it is, depending on the type of hedge transaction. Interest rate swaps are designated as cash flow hedges. Changes in the fair value of a cash flow hedge, to the extent the hedge is effective, are recorded, net of tax, in other comprehensive income (loss), a component of Partners’ capital, until earnings are affected by the variability of the hedged cash flows. Cash flow hedge ineffectiveness, defined as the extent that the changes in the fair value of the derivative exceed the variability of cash flows of the forecasted transaction, is recorded currently in earnings.

In January 2008, the Partnership entered into a \$50.0 million floating to fixed interest rate swap agreement (the “Swap”), maturing January 2010. Under the Swap, the Partnership receives interest equivalent to the three-month LIBOR and pays a fixed rate of interest of 3.489 percent with settlements occurring quarterly. The objective of the hedge is to eliminate the variability of cash flows in interest payments for \$50.0 million of floating rate debt. To maintain hedge accounting for the Swap, the Partnership is committed to maintaining at least \$50.0 million in borrowings at an interest rate based on the three-month LIBOR, plus an applicable margin, through January 2010. The Swap’s fair value of (\$0.1) million as of September 30, 2008, is included in accrued liabilities on the condensed consolidated balance sheet and the corresponding change in fair value is included in other comprehensive income, a component of Partners’ equity.

8. Commitments and Contingent Liabilities

The Partnership is subject to numerous federal, state and local laws which regulate the discharge of materials into the environment or that otherwise relate to the protection of the environment. These laws and regulations result in liabilities and loss contingencies for remediation at the Partnership’s facilities and at third-party or formerly owned sites. At September 30, 2008 and December 31, 2007, there were accrued liabilities for environmental remediation in the condensed consolidated balance sheets of \$0.7 million and \$1.1 million, respectively. The accrued liabilities for environmental remediation do not include any amounts attributable to unasserted claims, nor have any recoveries from insurance been assumed. Charges against income for environmental remediation totaled \$0.5 million and \$2.1 million for the three month periods ended September 30, 2008 and 2007, respectively, and \$1.0 million and \$4.4 million for the nine month periods ended September 30, 2008 and 2007, respectively.

Total future costs for environmental remediation activities will depend upon, among other things, the identification of any additional sites, the determination of the extent of the contamination at each site, the timing and nature of required remedial actions, the technology available and needed to meet the various existing legal requirements, the nature and extent of future environmental laws, inflation rates and the determination of the Partnership’s liability at multi-party sites, if any, in light of uncertainties with respect to joint and several liability, and the number, participation levels and financial viability of other parties. As discussed below, the Partnership’s current and future costs have been and will be impacted by an indemnification from Sunoco.

The Partnership is a party to certain pending and threatened claims. Although the ultimate outcome of these claims cannot be ascertained at this time, it is reasonably possible that some portion of them could be resolved unfavorably to the Partnership and its predecessor. Management does not believe that any liabilities which may arise from such claims and the environmental matters

discussed above would be material in relation to the financial position of the Partnership at September 30, 2008. Furthermore, Management does not believe that the overall costs for such matters will have a material impact, over an extended period of time, on the Partnership's operations, cash flows or liquidity.

Sunoco has indemnified the Partnership for 30 years from environmental and toxic tort liabilities related to the assets contributed to the Partnership that arise from the operation of such assets prior to the closing of the February 2002 initial public offering ("IPO"). Sunoco has indemnified the Partnership for 100 percent of all losses asserted within the first 21 years of closing of the February 2002 IPO. Sunoco's share of liability for claims asserted thereafter will decrease by 10 percent a year. For example, for a claim asserted during the twenty-third year after closing of the February 2002 IPO, Sunoco would be required to indemnify the Partnership for 80 percent of its loss. There is no monetary cap on the amount of indemnity coverage provided by Sunoco. The Partnership has agreed to indemnify Sunoco for events and conditions associated with the operation of the Partnership's assets that occur on or after the closing of the February 2002 IPO and for environmental and toxic tort liabilities to the extent Sunoco is not required to indemnify the Partnership.

Sunoco also has indemnified the Partnership for liabilities, other than environmental and toxic tort liabilities related to the assets contributed to the Partnership, that arise out of Sunoco's ownership and operation of the assets prior to the closing of the February 2002 IPO and that are asserted within 10 years after closing of the February 2002 IPO. In addition, Sunoco has indemnified the Partnership from liabilities relating to certain defects in title to the assets contributed to the Partnership and associated with failure to obtain certain consents and permits necessary to conduct its business that arise within 10 years after closing of the February 2002 IPO as well as from liabilities relating to legal actions currently pending against Sunoco or its affiliates and events and conditions associated with any assets retained by Sunoco or its affiliates.

Management of the Partnership does not believe that any liabilities which may arise from claims indemnified by Sunoco would be material in relation to the financial position of the Partnership at September 30, 2008. There are certain other pending legal proceedings related to matters arising after the February 2002 IPO that are not indemnified by Sunoco. Management believes that any liabilities that may arise from these legal proceedings will not be material in relation to the financial position of the Partnership at September 30, 2008.

Sunoco Partners Marketing & Terminals L.P. ("SPMT"), which is wholly owned by the Partnership, has received a proposed penalty assessment from the Internal Revenue Service ("IRS") in the aggregate amount of \$5.1 million based on a failure to timely file excise tax information returns relating to its terminal operations during the calendar years 2004 and 2005. SPMT became current on its information return filings with the IRS in July of 2006. SPMT believes it had reasonable cause for the failure to file the information returns on a timely basis, and provided this information to the IRS on October 19, 2007 in a formal filing. SPMT is currently awaiting a response from the IRS. The proposed penalties are for the failure to file information returns rather than any failure to pay taxes due, as no taxes were owed by SPMT in connection with such information. The timing or outcome of this claim, and the total costs to be incurred by SPMT in connection therewith, cannot be reasonably estimated at this time.

9. Fair Value Measurements

Effective January 1, 2008, the Partnership adopted the provisions of Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("SFAS No. 157") which pertains to certain balance sheet items measured at fair value on a recurring basis. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about such measurements that are permitted or required under other accounting pronouncements. While SFAS No. 157 may change the method of calculating fair value, it does not require any new fair value measurements.

In accordance with SFAS No. 157, the Partnership determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As required, the Partnership utilizes valuation techniques that maximize the use of observable inputs (levels 1 and 2) and minimize the use of unobservable inputs (level 3) within the fair value hierarchy established by SFAS No. 157. The Partnership generally applies the "market approach" to determine fair value. This method uses pricing and other information generated by market transactions for identical or comparable assets and liabilities. Assets and liabilities are classified within the fair value hierarchy based on the lowest level (least observable) input that is significant to the measurement in its entirety. The Partnership's financial instruments recorded at fair value were not material at September 30, 2008. The Partnership is currently evaluating the impact on its financial statements of the remaining provisions of SFAS No. 157, which must be adopted by January 1, 2009.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159") was issued and became effective January 1, 2008. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other eligible items at fair value that were not previously required to be measured at fair value, with unrealized gains and losses on such items reported in earnings. The Partnership did not adopt the use of fair value measurements for any new items as of the January 1, 2008 effective date of this new standard.

10. Management Incentive Plan

Sunoco Partners LLC, the general partner of the Partnership, participates in the Sunoco Partners LLC Long-Term Incentive Plan (“LTIP”) for employees and directors of the general partner who perform services for the Partnership. The LTIP is administered by the independent directors of the Compensation Committee of the general partner’s board of directors with respect to employee awards, and by the non-independent members of the general partners’ board of directors with respect to awards granted to the independent members. The LTIP currently permits the grant of restricted units and unit options covering an aggregate of 1,250,000 common units. There have been no grants of unit options since the inception of the LTIP. Restricted unit awards may also include tandem distribution equivalent rights (“DERs”) at the discretion of the Compensation Committee.

The Partnership issued 71,205 and 50,410 common units under the LTIP for the nine month periods ended September 30, 2008 and 2007, respectively, and recognized share-based compensation expense of \$3.9 million and \$4.2 million in the nine month periods ended September 30, 2008 and 2007, respectively. Each of the restricted unit grants also have tandem DER’s which are recognized as a reduction of Partners’ Capital when earned.

11. Cash Distributions

Within 45 days after the end of each quarter, the Partnership distributes all cash on hand at the end of the quarter, less reserves established by the general partner in its discretion. This is defined as “available cash” in the partnership agreement. The general partner has broad discretion to establish cash reserves that it determines are necessary or appropriate to properly conduct the Partnership’s business. The Partnership will make quarterly distributions to the extent there is sufficient cash from operations after establishment of cash reserves and payment of fees and expenses, including payments to the general partner.

The Partnership issued 11,383,639 subordinated units to its general partner in connection with the initial public offering in February 2002. These subordinated units were convertible to common units on a one-for-one basis provided the Partnership met applicable financial tests set forth in the partnership agreement. The Partnership met the minimum quarterly distribution requirements on all outstanding units, and as a result, the subordinated units converted to common units during 2005, 2006 and 2007.

If cash distributions exceed \$0.50 per unit in a quarter, the general partner will receive increasing percentages, up to 50 percent, of the cash distributed in excess of \$0.70 per unit. These distributions are referred to as “incentive distributions”.

Distributions paid by the Partnership for the period from January 1, 2007 through September 30, 2008 were as follows:

<u>Date Cash Distribution Paid</u>	<u>Cash Distribution per Limited Partner Unit</u>	<u>Total Cash Distribution to Limited Partners</u> (\$ in millions)	<u>Total Cash Distribution to the General Partner</u> (\$ in millions)
February 14, 2007	\$ 0.8125	\$ 23.2	\$ 5.1
May 15, 2007	\$ 0.8250	\$ 23.6	\$ 5.4
August 14, 2007	\$ 0.8375	\$ 23.9	\$ 5.8
November 14, 2007	\$ 0.8500	\$ 24.3	\$ 6.1
February 14, 2008	\$ 0.8700	\$ 24.9	\$ 6.7
May 15, 2008	\$ 0.8950	\$ 25.6	\$ 7.5
August 14, 2008	\$ 0.9350	\$ 26.8	\$ 8.6

On October 27, 2008, Sunoco Partners LLC, the general partner of Sunoco Logistics Partners L.P., declared a cash distribution of \$0.9650 per common partnership unit (\$3.86 annualized), representing the distribution for the third quarter 2008. The \$37.1 million distribution, including \$9.5 million to the general partner, will be paid on November 14, 2008 to unitholders of record at the close of business on November 7, 2008.

12. Business Segment Information

The following table sets forth condensed statement of income information concerning the Partnership's business segments and reconciles total segment operating income to net income for the three months ended September 30, 2008 and 2007, respectively (in thousands of dollars):

	Three Months Ended September 30,	
	2008	2007
Segment Operating Income		
Eastern Pipeline System:		
Sales and other operating revenue:		
Affiliates	\$ 23,280	\$ 21,336

Net interest expense	23,291	26,529
Net Income	\$ 139,160	\$ 85,075

The following table provides the identifiable assets for each segment as of September 30, 2008 and December 31, 2007 (in thousands):

	September 30, 2008	December 31, 2007
Eastern Pipeline System	\$ 376,457	\$ 370,278
Terminal Facilities	428,718	400,509
Western Pipeline System	1,930,757	1,710,093
Corporate and other	38,426	23,762
Total identifiable assets	<u>\$2,774,358</u>	<u>\$2,504,642</u>

Corporate and other assets consist primarily of cash and cash equivalents, advances to affiliates and deferred charges.

13. Supplemental Condensed Consolidating Financial Information

The Partnership and the operating partnerships of the Operating Partnership served as joint and several guarantors of the Senior Notes and of any obligations under the previous credit facility. The Partnership continues to serve as guarantor of the Senior Notes and of any obligations under the new credit facilities. These guarantees are full and unconditional. In connection with the Partnership's Credit Facility, the Subsidiary Guarantors were released from their obligations both under the previous credit facility, and the 7.25 percent and 6.125 percent Senior Notes in August 2007. Given that certain, but not all subsidiaries of the Partnership were guarantors, the Partnership was required to present the following supplemental condensed consolidating financial information. For purposes of the following footnote, Sunoco Logistics Partners L.P. is referred to as "Parent" and Sunoco Logistics Partners Operations L.P. is referred to as "Subsidiary Issuer." Sunoco Partners Marketing and Terminals L.P., Sunoco Pipeline L.P., Sun Pipeline Company of Delaware LLC, Sunoco Pipeline Acquisition LLC, Sunoco Logistics Partners GP LLC, Sunoco Logistics Partners Operations GP LLC and Sunoco Partners Lease Acquisition & Marketing LLC, are collectively referred to as "Non-Guarantor Subsidiaries."

The following supplemental condensed consolidating financial information (in thousands) reflects the Parent's separate accounts, the Subsidiary Issuer's separate accounts, the combined accounts of the Non-Guarantor Subsidiaries, the combined consolidating adjustments and eliminations and the Parent's consolidated accounts for the dates and periods indicated. For purposes of the following condensed consolidating information, the Parent's investments in its subsidiaries and the Subsidiary Issuer's investments in its subsidiaries are accounted for under the equity method of accounting.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations
Results of Operations – Three Months Ended September 30, 2008 and 2007

Sunoco Logistics Partners L.P.
Operating Highlights
Three Months Ended September 30, 2008 and 2007

	Three Months Ended September 30,	
	2008	2007
Eastern Pipeline System:⁽¹⁾		
Total shipments (barrel miles per day) ⁽²⁾	62,856,632	67,671,264
Revenue per barrel mile (cents)	0.549	0.498
Terminal Facilities:		
Terminal throughput (bpd):		
Refined product terminals ⁽³⁾	437,018	442,054
Nederland terminal	545,105	490,272
Refinery terminals ⁽⁴⁾	646,478	727,870
Western Pipeline System:⁽¹⁾		
Crude oil pipeline throughput (bpd)	492,823	528,407
Crude oil purchases at wellhead (bpd)	176,739	177,025
Gross margin per barrel of pipeline throughput (cents) ⁽⁵⁾	62.0	38.3

⁽¹⁾ Excludes amounts attributable to equity ownership interests in corporate joint ventures.

⁽²⁾ Represents total average daily pipeline throughput multiplied by the number of miles of pipeline through which each barrel has been shipped.

⁽³⁾ Includes results from the Partnership’s purchase of a 50% undivided interest in a refined products terminal in Syracuse, New York in June 2007.

⁽⁴⁾ Consists of the Partnership’s Fort Mifflin Terminal Complex, the Marcus Hook Tank Farm and the Eagle Point Dock.

⁽⁵⁾ Represents total segment sales minus cost of products sold and operating expenses and depreciation and amortization divided by crude oil pipeline throughput.

Analysis of Consolidated Net Income

Net income was \$50.3 million for the third quarter 2008 as compared with \$37.5 million for the third quarter 2007, an increase of \$12.8 million. The increase was the result of continued margin improvement across all segments, increased volumes within certain pipelines of the Western Pipeline system and additional tankage placed into service at the Nederland terminal. These increases were partially offset by lower volumes within certain terminal facilities and the Eastern Pipeline along with a \$2.5 million charge associated with property damages caused by the hurricanes experienced during the quarter.

Net interest expense decreased \$0.9 million to \$7.5 million for the third quarter 2008 from \$8.4 million for the prior year’s quarter primarily due to lower interest rates and decreased borrowings under the Partnership’s Credit Facility.

Analysis of Segment Operating Income

Eastern Pipeline System

Operating income for the Eastern Pipeline System increased \$2.7 million to \$17.4 million for the third quarter 2008 from \$14.7 million for the third quarter 2007. Sales and other operating revenue increased by \$0.7 million to \$31.7 million due primarily to higher fees across the Partnership’s refined product and crude oil pipelines, partially offset by decreased volumes. Other income decreased \$1.9 million compared to the prior year’s quarter due primarily to decreased refined product volumes experienced during 2008 by the Partnership’s joint venture interests. Operating expenses decreased by \$4.5 million to \$9.0 million compared to the prior year’s quarter due primarily to the impact of increased crude oil and refined product prices on operating gains and a decreased level of environmental charges.

Terminal Facilities

The Terminal Facilities business segment had operating income of \$13.7 million for the third quarter 2008, as compared to \$12.6 million for the prior year's third quarter. Sales and other operating revenue increased by \$4.8 million to \$40.6 million due primarily to increased terminal fees, the addition of tankage at the Nederland terminal and increased refined product additive revenues. These increases were partially offset by decreased throughput within the refinery and refined product terminals. Operating expenses increased by \$3.1 million to \$17.9 million for the third quarter of 2008 due primarily to damages incurred from hurricanes during the third quarter, increased product additive costs and higher utility costs. These higher costs were partially offset by product overages which were favorably impacted by the increased price of crude oil.

Western Pipeline System

Operating income for the Western Pipeline System increased \$8.1 million to \$26.7 million for the third quarter of 2008 compared to the prior year's quarter due primarily to the establishment of a bi-directional pipeline connection to the Partnership's Nederland terminal, increased volumes on certain pipeline segments, increased pipeline fees and higher lease acquisition margins.

Higher crude oil prices were a key driver of the overall increase in total revenue, cost of products sold and operating expenses from the prior year's quarter. The average price of West Texas Intermediate crude oil at Cushing, Oklahoma increased to \$118.13 per barrel for the third quarter of 2008 from \$75.33 per barrel for the third quarter of 2007.

Results of Operations – Nine Months Ended September 30, 2008 and 2007

Sunoco Logistics Partners L.P. Operating Highlights Nine Months Ended September 30, 2008 and 2007

	Nine Months Ended September 30,	
	2008	2007
Eastern Pipeline System:⁽¹⁾		
Total shipments (barrel miles per day) ⁽²⁾	61,428,075	64,820,837
Revenue per barrel mile (cents)	0.532	0.485
Terminal Facilities:		
Terminal throughput (bpd):		
Refined product terminals ⁽³⁾	428,146	432,685
Nederland terminal	541,517	521,147
Refinery terminals ⁽⁴⁾	647,891	686,033
Western Pipeline System:⁽¹⁾		
Crude oil pipeline throughput (bpd)	530,109	532,656
Crude oil purchases at wellhead (bpd)	175,173	180,826
Gross margin per barrel of pipeline throughput (cents) ⁽⁵⁾	55.3	27.8

(1) Excludes amounts attributable to equity ownership interests in corporate joint ventures.

(2) Represents total average daily pipeline throughput multiplied by the number of miles of pipeline through which each barrel has been shipped.

(3) Includes results from the Partnership's purchase of a 50% undivided interest in a refined products terminal in Syracuse, New York.

(4) Consists of the Partnership's Fort Mifflin Terminal Complex, the Marcus Hook Tank Farm and the Eagle Point Dock.

- (5) Represents total segment sales and other operating revenue minus cost of products sold and operating expenses and depreciation and amortization divided by crude oil pipeline throughput.

Analysis of Consolidated Net Income

Net income was \$139.2 million for the nine month period ended September 2008 as compared with \$85.1 million for the comparable period in 2007. The increase was the result of higher margins and fees across all segments, increased volumes within certain pipelines of the Western Pipeline system and additional tankage placed into service at the Nederland terminal. These improvements to operating income were partially offset by lower volumes within certain terminal facilities and the Eastern Pipeline, a \$5.7 million non-cash impairment charge related to a cancelled project and property damages caused by the hurricanes noted above. Decreased interest expense contributed further to the \$54.1 million increase in net income.

Net interest expense decreased \$3.2 million to \$23.3 million for the first nine months of 2008 from \$26.5 million for the first nine months of 2007 due to decreased borrowings and lower interest rates related to the Partnership's Credit Facility.

Analysis of Segment Operating Income

Eastern Pipeline System

Operating income for the Eastern Pipeline System increased \$7.5 million to \$42.7 million for the first nine months of 2008 from \$35.2 million for the first nine months of 2007. Sales and other operating revenue increased from \$85.9 million for the prior year's period to \$89.6 million for the nine months ended September 30, 2008 due mainly to higher fees across the Partnership's refined product and crude oil pipelines, partially offset by decreased volumes. Other income decreased by \$3.9 million to \$6.5 million for the first nine months of 2008 from \$10.4 million for the prior year period due mainly to a decrease in equity income associated with the Partnership's joint venture interests. Operating expenses decreased by \$8.1 million to \$31.0 million due primarily to the impact of increased crude oil and refined product prices on operating gains and a decreased level of environmental charges.

Terminal Facilities

The Terminal Facilities segment had operating income of \$42.9 million for the nine months ended September 2008, as compared to \$40.3 million for the first nine months of 2007. Operating income was reduced during the first nine months of 2008 due to a \$5.7 million non-cash impairment charge related to the Partnership's decision to discontinue efforts to expand LPG storage capacity at its Inkster, Michigan facility. Sales and other operating revenue increased \$15.3 million to \$119.3 million for the first nine months of 2008 due primarily to the addition of new tankage at the Nederland terminal, higher fees at the Partnership's Nederland and refined products terminals and increased product additive revenues. The increases were partially offset by decreased volumes in the Partnership's refinery and refined product terminals. Other income increased \$0.8 million from the first nine months of 2008 as a result of an insurance recovery recorded during the second quarter associated with hurricane damage sustained in 2005. Cost of goods sold and operating expenses increased by \$5.4 million to \$45.5 million for the nine months ended September 2008 due primarily to increased product additive costs, damages incurred at the Partnership's Nederland terminal from the hurricanes experienced during the third quarter, higher utility costs and timing of maintenance activity. These higher costs were partially offset by product overages which were favorably impacted by the increased price of crude oil. Selling, general and administrative expenses increased by \$1.7 million to \$13.9 million for the nine months ended September 30, 2008. During 2007, expenses were reduced by \$0.9 million in connection with an insurance recovery.

Western Pipeline System

Operating income for the Western Pipeline System increased \$40.9 million to \$76.9 million for the first nine months of 2008 from \$36.0 million for the first nine months of 2007. The increase was due primarily to the establishment of a bi-directional pipeline connection to the Partnership's Nederland terminal, increased volumes on certain pipeline segments, increased pipeline fees and higher lease acquisition margins. Other income also contributed to the increased profitability due to increased equity income associated with the Partnership's joint venture interests and the gain on an insurance recovery discussed above.

Higher crude oil prices were a key driver of the overall increase in total revenue, cost of products sold and operating expenses from the prior year period. The average price of West Texas Intermediate crude oil at Cushing, Oklahoma increased to \$113.38 per barrel for the first nine months of 2008 from \$66.26 per barrel for the first nine months of 2007.

Liquidity and Capital Resources

Liquidity

Cash generated from operations and borrowings under the credit facilities are the Partnership's primary sources of liquidity. At September 30, 2008, the Partnership had available borrowing capacity under the credit facilities of \$394.0 million. The Partnership's working capital position reflects crude oil inventories based on historical costs under the LIFO method of accounting. If the inventories had been valued at their current replacement cost, the Partnership would have had working capital of \$92.1 million at September 30, 2008.

On April 28, 2008, Sunoco Pipeline L.P., a subsidiary of the Partnership, entered into a definitive agreement to acquire a refined products pipeline system and certain other real and personal property interests and assets from Mobil Pipe Line Company. In addition to the pipeline system, Sunoco Partners Marketing & Terminals L.P., a subsidiary of the Partnership, entered into definitive agreements with Exxon Mobil Corporation, Mobil Pipe Line Company and ExxonMobil Oil Corporation, to acquire six refined products terminal facilities. Subject to necessary regulatory filings and approvals and the satisfaction of certain closing conditions, the transactions, with a combined purchase price of approximately \$200.0 million, are expected to be completed in the fourth quarter of 2008. These acquisitions are expected to be funded through a combination of cash on hand and the Partnership's revolving credit facilities and other borrowings. For further information on these transactions see "Item 1. Notes to Condensed Consolidated Financial Statements (unaudited)—Note 2."

Capital Resources

The Partnership periodically supplements its cash flows from operations with proceeds from debt and equity financing activities.

\$400 Million Credit Facility

Sunoco Logistics Partners Operations L.P. (the "Operating Partnership"), a wholly-owned entity of the Partnership, has a five-year \$400 million revolving Credit Facility, which is available to fund the Operating Partnership's working capital requirements, to finance future acquisitions, to finance future capital projects and for general partnership purposes. The Credit Facility, which has a syndicate of 10 participating banks, matures in November 2012. At December 31, 2007, there was \$91.0 million outstanding under the Credit Facility. During the first nine months of 2008, the Partnership had net borrowings of \$10.0 million resulting in an outstanding balance of \$101.0 million at September 30, 2008.

The Credit Facility bears interest at the Operating Partnership's option, at either (i) LIBOR plus an applicable margin, (ii) the higher of the federal funds rate plus 0.50 percent or the Citibank prime rate (each plus the applicable margin) or (iii) the federal funds rate plus an applicable margin.

The Credit Facility contains various covenants limiting the Operating Partnership's ability to a) incur indebtedness, b) grant certain liens, c) make certain loans, acquisitions and investments, d) make any material change to the nature of its business, e) acquire another company, or f) enter into a merger or sale of assets, including the sale or transfer of interests in the Operating Partnership's subsidiaries. The Credit Facility also requires the Operating Partnership to maintain, on a rolling four-quarter basis, a maximum total debt to EBITDA ratio of 4.75 to 1, which can generally be increased to 5.25 to 1 during an acquisition period. The Operating Partnership is in compliance with this requirement as of September 30, 2008. The Partnership's ratio of total debt to EBITDA was 2.1 to 1 at September 30, 2008.

In September 2008, Lehman Brothers, one of the participating banks with a commitment under the Credit Facility amounting to \$5.0 million declared bankruptcy and the Partnership believes Lehman Brothers will not fund future draw requests. In October 2008, Wachovia, another participant with a \$40.0 million commitment agreed to be acquired by Wells Fargo after experiencing financial difficulties. Under this transaction, the Partnership believes Wells Fargo will honor Wachovia's commitment under the facility. However, the Partnership can not make any assurances that this transaction will close.

\$100 Million Credit Facility

In anticipation of the pending MagTex Acquisition, the Operating Partnership entered into a \$100 million 364 day revolving credit facility ("\$100 million Credit Facility") on May 28, 2008. This \$100 million Credit Facility is available to fund the same activities as the Credit Facility described above. If the MagTex Acquisition is terminated, this new revolver will be terminated. The \$100 million Credit Facility matures in May 2009 and can be prepaid at any time. Interest on outstanding borrowings is calculated, at the Operating Partnership's option, using either (i) LIBOR plus and applicable margin or (ii) the higher of (a) the federal funds rates plus 0.50 percent plus an applicable margin, and (b) the Citibank prime rate plus an applicable margin. The \$100 million Credit Facility contains the same covenant requirements as the Credit Facility described above. As of September 30, 2008 there were no borrowings outstanding under the \$100 million Credit Facility.

Cash Flows and Capital Expenditures

Net cash provided by operating activities for the nine months ended September 30, 2008 was \$196.9 million compared with \$103.8 million of net cash provided by operating activities for the first nine months of 2007. Net cash provided by operating activities for the first nine months of 2008 was primarily the result of net income of \$139.2 million, depreciation and amortization of \$29.5 million, the \$5.7 million impairment charge, and a \$23.8 million decrease in working capital. The decrease in working capital was the result of an increase in accounts payable and a decrease in accounts receivable activity driven primarily by commodity prices, partially offset by a increase in accounts receivable from affiliated companies and inventory. Net cash provided by operating activities for the first nine-months of 2007 was primarily the result of net income of \$85.1 million and depreciation and amortization of \$27.9 million, partially offset by a \$19.8 million increase in working capital. The increase in working capital was primarily attributable to an increase in accounts receivable due to higher revenues, partially offset by a decrease in inventory associated with the reduction of contango inventory positions.

Net cash used in investing activities for the first nine months of 2008 was \$99.5 million compared with \$87.1 million for the first nine months of 2007.

Net cash used in financing activities for the first nine months of 2008 was \$97.4 million compared with \$24.1 million net cash used in financing activities for the first nine months of 2007. Net cash used in financing activities for the first nine months of 2008 resulted from \$100.1 million in distributions paid to limited partners and the general partner and an increase in advances to affiliates of \$8.8 million. This use of cash was partially offset by a \$10.0 million increase in net borrowings under the Partnership's credit facilities to fund the Partnership's organic growth capital program. Net cash used in financing activities for the first nine months of 2007 was the result of \$87.0 million in distributions paid to limited partners and the general partner, and \$21.0 million in net advances to affiliates. This use of cash was partially offset by an \$84.3 million increase in net borrowings under the Partnership's credit facilities to fund the Partnership's organic growth capital program, contango inventory positions, and to purchase a 50% undivided interest in a refined products terminal located in Syracuse, New York.

Under a treasury services agreement with Sunoco, the Partnership participates in Sunoco's centralized cash management program. Advances from affiliates in the Partnership's condensed consolidated balance sheets at September 30, 2008 represent amounts due to Sunoco under this agreement. Advances to affiliates at December 31, 2007 represent amounts due from Sunoco under this agreement.

Capital Requirements

The pipeline, terminalling, and crude oil transport operations are capital intensive, requiring significant investment to maintain, upgrade or enhance existing operations and to meet environmental and operational regulations. The capital requirements have consisted, and are expected to continue to consist, primarily of:

- Maintenance capital expenditures, such as those required to maintain equipment reliability, tankage and pipeline integrity and safety, and to address environmental regulations; and
- Expansion capital expenditures to acquire assets to grow the business and to expand existing and construct new facilities, such as projects that increase storage or throughput volume.

The following table summarizes maintenance and expansion capital expenditures, including net cash paid for acquisitions, for the periods presented (in thousands of dollars):

	Nine Months Ended September 30,	
	2008	2007
Maintenance	\$15,655	\$14,562
Expansion	73,389	72,528
	<u>\$89,044</u>	<u>\$87,090</u>

Management anticipates maintenance capital expenditures to be approximately \$27.0 million for the year ended December 31, 2008, excluding reimbursements from Sunoco in accordance with the terms of certain agreements. Maintenance capital expenditures for both periods presented include recurring expenditures such as pipeline integrity costs, pipeline relocations, repair and upgrade of field instrumentation, including measurement devices, repair and replacement of tank floors and roofs, upgrades of cathodic protection systems, crude trucks and related equipment, and the upgrade of pump stations.

Expansion capital expenditures for the nine months ended September 30, 2008 were \$73.4 million compared to \$72.5 million for the first nine months of 2007. Expansion capital for 2008 includes construction in progress, in connection with the Partnership's agreement with Motiva Enterprises LLC, of three crude oil storage tanks at its Nederland Terminal and a crude oil pipeline from Nederland to Motiva's Port Arthur, Texas refinery. Expansion capital also includes construction of five additional crude oil storage tanks at Nederland, for a total of eight crude oil storage tanks under various levels of construction at Nederland during 2008. These eight crude oil storage tanks will have a combined shell capacity of approximately 4.8 million barrels. Expansion capital for 2007 included the \$13.4 million acquisition of a 50 percent interest in the Syracuse, New York refined products terminal.

The Partnership expects to fund capital expenditures, including pending and future acquisitions, from both cash provided by operations and, to the extent necessary, from the proceeds of borrowings under the Partnership's Credit Facilities, other borrowings and the issuance of additional common units.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our exposure to interest-rate risk relates primarily to variable-rate borrowings. Variable-rate debt outstanding at September 30, 2008 was \$101.0 million and averaged \$106.2 million during the third quarter of 2008. The Partnership issues long-term debt either at fixed rates or uses interest rate swaps to limit exposure to changes in interest rates on variable-rate, long-term debt. On January 8, 2008, the Partnership entered into an interest rate swap with a notional amount of \$50.0 million maturing January 2010. Under the swap agreement, the Partnership receives interest equivalent to the three-month LIBOR and pays a fixed rate of interest of 3.489 percent with settlements occurring quarterly. To maintain hedge accounting for the Swap, the Partnership is committed to maintaining at least \$50.0 million in borrowings at an interest rate based on the three-month LIBOR, plus an applicable margin, through January 2010. Additional variable-rate borrowings under the revolving credit facilities will be subject to fluctuations in interest rates.

Commodity Market Risk

The Partnership is exposed to volatility in crude oil commodity prices. To manage such exposures, inventory levels and expectations of future commodity prices are monitored when making decisions with respect to risk management and inventory carried. The Partnership does not hold or issue any derivative instruments for trading purposes.

Forward-Looking Statements

Some of the information included in this quarterly report on Form 10-Q contains "forward-looking" statements and information relating to Sunoco Logistics Partners L.P. that is based on the beliefs of its management as well as assumptions made by and information currently available to management.

Forward-looking statements discuss expected future results based on current and pending business operations, and may be identified by words such as "anticipates," "believes," "expects," "planned," "scheduled" or similar expressions. Although management of the Partnership believes these forward-looking statements are reasonable, they are based upon a number of assumptions, any or all of which may ultimately prove to be inaccurate. Statements made regarding future results are subject to numerous assumptions, uncertainties and risks that may cause future results to be materially different from the results stated or implied in this document.

The following are among the important factors that could cause actual results to differ materially from any results projected, forecasted, estimated or budgeted:

- Our ability to successfully consummate announced acquisitions or expansions and integrate them into our existing business operations;
- Delays related to construction of, or work on, new or existing facilities and the issuance of applicable permits;
- Changes in demand for, or supply of, crude oil, refined petroleum products and natural gas liquids that impact demand for the Partnership's pipeline, terminalling and storage services;
- Changes in the demand for crude oil we both buy and sell;
- The loss of Sunoco R&M as a customer or a significant reduction in its current level of throughput and storage with the Partnership;

- An increase in the competition encountered by the Partnership's petroleum products terminals, pipelines and crude oil acquisition and marketing operations;
- Changes in the financial condition or operating results of joint ventures or other holdings in which the Partnership has an equity ownership interest;
- Changes in the general economic conditions in the United States;
- Changes in laws and regulations to which the Partnership is subject, including federal, state, and local tax, safety, environmental and employment laws;
- Changes in regulations concerning required composition of refined petroleum products that result in changes in throughput volumes, pipeline tariffs and/or terminalling and storage fees;
- Improvements in energy efficiency and technology resulting in reduced demand for petroleum products;
- The Partnership's ability to manage growth and/or control costs;
- The effect of changes in accounting principles and tax laws and interpretations of both;
- Global and domestic economic repercussions, including disruptions in the crude oil and petroleum products markets, from terrorist activities, international hostilities and other events, and the government's response thereto;
- Changes in the level of operating expenses and hazards related to operating facilities (including equipment malfunction, explosions, fires, spills and the effects of severe weather conditions);
- The occurrence of operational hazards or unforeseen interruptions for which the Partnership may not be adequately insured;
- The age of, and changes in the reliability and efficiency of the Partnership's operating facilities;
- Changes in the expected level of capital, operating, or remediation spending related to environmental matters;
- Changes in insurance markets resulting in increased costs and reductions in the level and types of coverage available;
- Risks related to labor relations and workplace safety;
- Non-performance by or disputes with major customers, suppliers or other business partners;
- Changes in the Partnership's tariff rates implemented by federal and/or state government regulators;
- The amount of the Partnership's indebtedness, which could make the Partnership vulnerable to adverse general economic and industry conditions, limit the Partnership's ability to borrow additional funds, place it at competitive disadvantages compared to competitors that have less debt, or have other adverse consequences;
- Restrictive covenants in the Partnership's or Sunoco, Inc.'s credit agreements;
- Changes in the Partnership's or Sunoco, Inc.'s credit ratings, as assigned by ratings agencies;
- The condition of the debt capital markets and equity capital markets in the United States, and the Partnership's ability to raise capital in a cost-effective way;
- Performance of financial institutions impacting the Partnership's liquidity, including those supporting the Partnership's Credit Facilities;
- Changes in interest rates on the Partnership's outstanding debt, which could increase the costs of borrowing;
- Claims of the Partnership's non-compliance with regulatory and statutory requirements; and
- The costs and effects of legal and administrative claims and proceedings against the Partnership or any entity in which it has an ownership interest, and changes in the status of, or the initiation of new litigation, claims or proceedings, to which the Partnership, or any entity in which it has an ownership interest, is a party.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of the Partnership's forward-looking statements. Other factors could also have material adverse effects on future results. The Partnership undertakes no obligation to update publicly any forward-looking statement whether as a result of new information or future events.

Item 4. Controls and Procedures

(a) Disclosure controls and procedures are designed to ensure that information required to be disclosed in the Partnership reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the Partnership reports under the Exchange Act is accumulated and communicated to management, including the President and Chief Executive Officer of Sunoco Partners LLC (the Partnership's general partner) and the Vice President and Chief Financial Officer of the general partner, as appropriate, to allow timely decisions regarding required disclosure.

(b) As of September 30, 2008, the Partnership carried out an evaluation, under the supervision and with the participation of the management of the general partner (including the President and Chief Executive Officer and the Vice President and Chief Financial Officer), of the effectiveness of the design and operation of the Partnership's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the general partner's President and Chief Executive Officer, and its Vice President and Chief Financial Officer, concluded that the Partnership's disclosure controls and procedures are effective.

(c) No change in the Partnership's internal control over financial reporting has occurred during the fiscal quarter ended September 30, 2008 that has materially affected, or that is reasonably likely to materially affect, the Partnership's internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

There are certain legal and administrative proceedings arising prior to the February 2002 IPO pending against the Partnership's Sunoco-affiliated predecessors and the Partnership (as successor to certain liabilities of those predecessors). Although the ultimate outcome of these proceedings cannot be ascertained at this time, it is reasonably possible that some of them may be resolved unfavorably. Sunoco has agreed to indemnify the Partnership for 100 percent of all losses from environmental liabilities related to the transferred assets arising prior to, and asserted within 21 years of February 8, 2002. There is no monetary cap on this indemnification from Sunoco. Sunoco's share of liability for claims asserted thereafter will decrease by 10 percent each year through the thirtieth year following the February 8, 2002 date. Any remediation liabilities not covered by this indemnity will be the Partnership's responsibility. In addition, Sunoco is obligated to indemnify the Partnership under certain other agreements executed after the February 2002 IPO.

There are certain other pending legal proceedings related to matters arising after the February 2002 IPO that are not indemnified by Sunoco. Management believes that any liabilities that may arise from these legal proceedings will not be material to the Partnership's financial position at September 30, 2008.

Item 1A. Risk Factors

Part I, Item 1A, of the Partnership's Annual Report on Form 10-K for the year ended December 31, 2007, filed on February 26, 2008, includes a detailed discussion of the Partnership's risk factors. The information below provides updates to the previously disclosed risk factors and when read in conjunction with the risk factors and information disclosed in the Partnership's 2007 Annual Report on Form 10-K represent our currently known material risks.

We may not be able to obtain funding, or obtain funding on acceptable terms, to meet our future capital needs because of the deterioration of the credit and capital markets.

Global market and economic conditions have been, and continue to be volatile. The debt and equity capital markets have been impacted by, among other things, significant write-offs in the financial services sector relating to subprime mortgages and the re-pricing of credit risk in the broadly syndicated market.

As a result, the cost of raising money in the debt and equity capital markets could be higher and the availability of funds from those markets could be diminished if we seek access to those markets. Accordingly, we cannot be certain that additional funding will be available if needed and to the extent required, on acceptable terms. If additional funding is not available when needed, or is available only on unfavorable terms, we may be unable to implement our business plan, enhance our existing business, complete acquisitions or otherwise take advantage of business opportunities or respond to competitive pressures, any of which could have a material adverse effect on our revenues and results of operations.

Due to current economic conditions, our ability to obtain funding under our revolving credit facilities could be impaired.

We operate in a capital intensive industry and periodically rely on our revolving credit facilities to finance a portion of our capital expenditures and for other general partnership purposes. Our ability to draw from our revolving credit facilities may be impaired because of the recent downturn in the financial market, including the issues surrounding the solvency of many institutional lenders and the recent failure of several banks.

If we are unable to draw from our revolving Credit Facilities we will need to meet our capital requirements through other sources. If the cash generated from our operations or the funds we are able to obtain under our revolving credit facilities or other sources of liquidity are not sufficient to meet our capital requirements then we may need to curtail certain of our operations which could adversely affect our revenues, results of operations and limit our growth.

Any reduction in our credit ratings or in Sunoco's credit ratings could materially and adversely affect our business, financial condition, liquidity and results of operations.

We currently maintain an investment grade rating by Moody's and by S&P. However, we cannot provide assurance that any of our current ratings will remain in effect for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if, in its judgment, circumstances in the future so warrant. Specifically, if Moody's or S&P were to downgrade our long-term rating, particularly below investment grade, our borrowing costs would significantly increase, which would adversely affect our financial results, and our potential pool of investors and funding sources could decrease. Further, due to our relationship with Sunoco, any down-grading in Sunoco's credit ratings could also result in a down-grading of our credit ratings. Ratings from credit agencies are not recommendations to buy, sell or hold our securities. Each rating should be evaluated independently of any other rating.

Our operations may incur substantial liabilities to comply with climate change legislation and regulatory initiatives.

The U.S. Congress is considering legislation to reduce emissions of greenhouse gases (including carbon dioxide and methane). In addition, more than one-third of the states have begun implementing legal measures to reduce emissions of greenhouse gases, primarily through the development of greenhouse gas emission inventories and/or regional greenhouse gas cap and trade programs. Also, on April 2, 2007, the U.S. Supreme Court in *Massachusetts, et al. v. EPA* held that carbon dioxide may be regulated as an "air pollutant" under the federal Clean Air Act and that EPA must consider whether it is required to regulate greenhouse gas emissions from mobile sources such as cars and trucks. Moreover, the Court's holding in the *Massachusetts* decision that greenhouse gases fall under the federal Clean Air Act's definition of "air pollutant" also may result in future regulation of greenhouse gas emissions from stationary sources. In July 2008, EPA released an "Advance Notice of Proposed Rulemaking" regarding possible future regulation of greenhouse gas emissions under the Clean Air Act. Although the notice did not propose any specific, new regulatory requirements for greenhouse gases, it indicates that federal regulation of greenhouse gas emissions could occur in the near future. Thus, there may be restrictions imposed on the emission of greenhouse gases even if Congress does not adopt new legislation specifically addressing emissions of greenhouse gases. Although it is not possible at this time to predict how legislation or new regulations that may be adopted to address greenhouse gas emissions would impact our business, any such future laws and regulations could result in increased compliance costs or additional operating restrictions.

Item 2. Unregistered Sales of Equity Securities and Uses of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibits

- 12.1 Statement of Computation of Ratio of Earnings to Fixed Charges
- 31.1 Chief Executive Officer Certification of Periodic Report Pursuant to Exchange Act Rule 13a-14(a)
- 31.2 Chief Financial Officer Certification of Periodic Report Pursuant to Exchange Act Rule 13a-14(a)
- 32.1 Chief Executive Officer Certification of Periodic Report Pursuant to Exchange Act Rule 13a-14(b) and U.S.C. §1350
- 32.2 Chief Financial Officer Certification of Periodic Report Pursuant to Exchange Act Rule 13a-14(b) and U.S.C. §1350

Date: November 5, 2008

STATEMENT OF COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES
(UNAUDITED)

Sunoco Logistics Partners L.P.

	Nine Months Ended September 30, 2008
Fixed Charges:	
Interest cost and debt expense	\$ 25,914
Interest allocable to rental expense (a)	1,457
Total	<u>\$ 27,371</u>
Earnings:	
Income before income tax expense	\$ 139,160
Equity in income of less than 50 percent owned affiliated companies	(18,075)
Dividends received from less than 50 percent owned affiliated companies	16,879
Fixed charges	27,371
Interest capitalized	(2,613)
Amortization of previously capitalized interest	185
Total	<u>\$ 162,907</u>
Ratio of Earnings to Fixed Charges	<u>5.95</u>

(a) Represents one-third of the total operating lease rental expense which is that portion deemed to be interest.

CERTIFICATION
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Deborah M. Fretz, President and Chief Executive Officer of Sunoco Partners LLC, the general partner of the registrant Sunoco Logistics Partners L.P., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended September 30, 2008 of Sunoco Logistics Partners L.P.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated entities, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
